funding

Recovery Services of Northwest Ohio receives funding from the Four County Board of Alcohol, Drug Addiction and Mental Health Services, United Way, Medicaid, client fees and insurance.

treatment team

Recovery Services of Northwest Ohio provides professional services by trained, licensed and certified staff. At Serenity Haven, women are provided with treatment for mental health and/or chemical dependency disorders. Professional help is provided through psychiatric services, medication, case management and alcohol and drug treatment.

Women's Residential Treatment

THE ROAD TO
recovery
BEGINS HERE

About SerenityHaven

Serenity Haven opened its doors in April of 1999 and has since helped more than 30 mothers give birth to drug-free babies. The residence can house up to 16 women and provides long-term alcohol, drug and mental health treatment in a tranquil, rural setting.

Serenity Haven offers each resident a safe place to live that is free of drugs and alcohol. At Serenity Haven, residents can examine their life situation and make new choices and changes in their lifestyle. The population of Serenity Haven is diverse and residents are required to accept responsibility for shared

household duties. The staff uses a holistic approach to treat the conditions that impact those who stay at the home.

Serenity Haven is a program of Recovery Services of Northwest Ohio, a non-profit (501c3) organization. The home allows residents to work together toward a common cause – recovery. Upon completion of a stay at Serenity Haven, individuals are better equipped to live a life free of drugs and alcohol and are on the road to a state of mental well-being. Residents are linked to aftercare counseling close to home at the conclusion of a stay at Serenity Haven.

programming

Serenity Haven clients receive several hours a day of structured treatment, 5 days a week. Treatments include group therapy, individual counseling, lectures, parenting classes, support programs, drug testing and twelve step programming. Clients are encouraged to attend recovery-oriented social activities and to volunteer within the community. Clients receive a complete orientation and assessment upon admission to the program. For more information, call 419-237-3103.
