

Satisfaction & Outcome Survey Information

The Four County ADAMhs Board is currently providing you with a subsidy to assist in payment of your services here at Recovery Services of Northwest Ohio.

The Board asks that you complete a survey to provide feedback regarding services received so that we may continue to provide quality care.

When your input is requested, which is based on specific intervals of time (At a minimum of every 6 months and at your agency discharge), you will be provided a link to access through a smart phone, tablet, or personal computer. This link will take you to a series of questions for you to navigate through.

Your input is valuable and we appreciate your willingness to participate.
